

**NASA GSFC DRFP NNG15499015R**  
**Systems Engineering Advanced Services (SEAS)**  
**Final RFP Questions**

1. RFP Enclosure C, Representative Task Orders. The responses to Questions 24, 25, and 26 related to RTO 1 provided by the Government on Dec 24, 2014 indicated that the PDR referenced in Subtask 1 and Subtask 3 was Mission PDR. The government provided an updated RTO document highlighting in bold where changes were made. However, in Subtask 2: Payload Preliminary Design, items 8 and 9 were changed from Preliminary Design Review (PDR) to Mission Preliminary Design Review (MPDR). These changes in Subtask 2 were not highlighted in bold as were the other changes in Subtasks 1 and 3 in RTO 1. Should these changes be deleted so that the references in items 8 and 9 are to the Payload Preliminary Design Review (PDR) as opposed to the Mission Preliminary Design Review (MPDR)?

**Answer:** No, the addition of the word “Mission” in subtask 2, items 8 and 9 made under Amendment 1 should not be deleted. The Government inadvertently forgot to bold the word “Mission” when it issued Amendment 1.
